DETAILED ACTION

Response to Arguments

1. The response filed on July 8, 2005 is sufficient to overcome the previously cited reference(s). Claims 1-15 are cancelled. The remaining claims have been renumbered 1-6.

Allowable Subject Matter

2. Claims 1-6 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1-6 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches a method of compensation for illumination variation in an image scanner, comprising initiating image scanning, as soon as sufficient illumination is available, without waiting for illumination to stabilize; monitoring the intensity of the illumination, along substantially the entire length of a scanline, during scanning; and modifying an output of an imaging array, during scanning, in response to the intensity being monitored, respectfully, as taught in Independent Claims 1 and 6 including all of the features recited therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
